

Envelope Owl Puppet

Materials

- 1 envelope
- Orange Construction Paper
- Construction Paper of your Choice
- Scissors
- Markers
- Glue Stick
- Liquid Glue
- Googly Eyes

Instructions

1. Seal the envelope.
2. Cut approximately an inch off of one side of the envelope to make a slot that you can place your hand in, like a puppet.
3. Cut the construction paper (color of your choice) to fit directly on top of your envelope (the same shape & size), and then glue in place.
4. Cut a small triangle from the orange construction paper to make a beak. Glue it in the middle of your envelope.
5. Directly above your beak, glue two googly eyes for the eyes of the owl.
6. Cut two half-circles out of construction paper (color of your choice) to make wings. Glue one wing to each edge of the envelope, so they look like a D on the left and a backwards D on the right.
7. Draw wave-like lines for feathers, both on the wings and in between them.
8. You're done!
